

AP European History Review

Main Concepts to Consider as you REVIEW

Complete the charts in bullet form, use as few words as possible and still get the main idea.

Use key vocabulary associated with each.

Work quickly if you are reviewing, move on if you do not know [come back later to complete] and find out where your “holes” are.

Focus on a topic per day or per session, do not try to do too much at one time or in one sitting.

Review afterwards and see if it is complete.

Good luck!
