Analyzing Imperial Motives

Western countries practiced imperialism in five (5) basic ways:

- Economic
- Political
- Religious
- Exploratory
- Ideological

Create a spectrum that indicates where you believe these motives to lie in terms of appropriateness and explain why.

1. Place each motive on the spectrum
2. Create a symbol for the motive, explain the motive & give an example in a textbox
3. Write a paragraph that justifies why you placed each motive in its particular place.

Why do you believe each motive should be where you placed it?
